

HARISH

VELLORE, TAMILNADU | 8778271624 | harishumachandran@gmail.com | Linkdin | Portfolio

OBJECTIVE

Cybersecurity enthusiast with hands-on experience in SOC monitoring, SIEM analysis, threat detection, and incident investigation using Splunk and Sysmon. Skilled in analyzing Windows logs, detecting brute force and RDP attacks, and monitoring security events. Familiar with Windows, Linux, network security, and basic threat hunting techniques.

EDUCATION

Vellore Institute of Technology

Master of Computer Application(MCA) - CGPA: 7.83

KMG College of Arts and Science

Bachelor of Computer Application(BCA) - CGPA: 7.5

PROJECTS

SIEM-Based Threat Detection Platform | Github

Created a centralized security monitoring solution for detecting malicious activity, analyzing Windows Event Logs, and visualizing threats in real time.

ThreatScan: AI-Powered Email & URL Threat Analyzer | Github

Created a Chrome Extension that works inside Gmail to find phishing scams and dangerous links. Built with React and Claude AI to read emails and give them a safety score. Added a simple side panel and a button to automatically check unread messages. This project helps people easily spot fake emails and stay safe online.

Sign-to-Speech: Real-Time Gesture Recognition and Voice Generation | Github

Created a system that detects hand gestures in real-time and converts them into speech. Used MobileNetV2 and MediaPipe for fast and accurate gesture recognition. Added a simple interface using Tkinter and included features like emergency alerts through email. The project helps people with speech or hearing difficulties communicate more easily.

SKILLS

SIEM & SOC Tools: Splunk, Wazuh, Sysmon

SOC & Security Skills: Threat Detection, Log Analysis, Incident Investigation, Threat Hunting, Alert Triage, Event Correlation, MITRE ATT&CK

Attack Detection: Brute Force Detection, RDP Monitoring, Privilege Escalation Detection, PowerShell Monitoring, Credential Access Detection

Operating Systems: Kali Linux, Ubuntu, Windows Client/Server

Security & Networking: Windows Event Logs, TCP/IP, Network Monitoring, Packet Analysis, Firewall Basics

Tools & Utilities: Nmap, Wireshark, Hydra, Metasploit, Burp Suite

Programming & Scripting: Python, SQL, Bash, PowerShell

Cloud & Virtualization: AWS Basics, VMware, VirtualBox

Soft Skills: Analytical Thinking, Problem Solving, Incident Response, Documentation

CERTIFICATES

Certified Ethical Hacker (**ongoing**)

GIT Training on Simplilearn – **May 2025** | DL

Deloitte Australia Cyber Completion Certificate – **May 2025** | DL
